Parchi: frontend links & resources

For: Antara Gupta and Aditya (frontend) · **From:** Aditya Singh · 23 Oct 2026
Mentor's direction: the GUI is the star. Build it like an app people would pay for. Full screen spec: GitHub repo → `docs/team/Frontend-Antara-Aditya.md` (section 8 = GUI v2).
All links below were opened and checked on 23 Oct 2026.

1. Start here: Apple's official guides (we build in SwiftUI for iPhone)

What	Link	Use it for
Human Interface Guidelines	https://developer.apple.com/design/human-interface-guidelines	The rules judges expect from an iPhone app: layout, navigation, sheets, lists
HIG: Maps	https://developer.apple.com/design/human-interface-guidelines/maps	Our Price Map screen (pins, place cards)
HIG: Accessibility	https://developer.apple.com/design/human-interface-guidelines/accessibility	Large text, VoiceOver, 44 pt targets, contrast (elderly users)
SwiftUI documentation	https://developer.apple.com/documentation/swiftui	Every view, modifier, sheet, navigation API
SwiftUI tutorials	https://developer.apple.com/tutorials/swiftui	If SwiftUI is new to you: 1–2 hours
MapKit for SwiftUI	https://developer.apple.com/documentation/mapkit/mapkit-for-swiftui	`Map`, annotations (price pins), user location, look-around
SF Symbols	https://developer.apple.com/sf-symbols/	Download the app; use only SF Symbols for icons (pills, cross.case, testtube.2, map, shippingbox)
Apple Design Resources	https://developer.apple.com/design/resources/	Official iOS UI kits for Figma/Sketch: design screens before coding

2. From our resources folder: useful for Parchi

Resource	Link	Cost	Use it for in Parchi
Mobbin	https://mobbin.com	Free tier enough	See how real iOS apps solve our screens. Search the list in section 5
NameThatUI	https://namethatui.org	Free	Find the exact name of a UI element and its SwiftUI name, before asking an AI to build it ("non-modal bottom sheet with a drag handle")
Cosmos	https://www.cosmos.so	Free	Mood board by colour for our health/trust look

Rive (+ iOS runtime)	https://rive.app · https://github.com/rive-app/rive-ios	Free tier	One or two small interactive animations (Plan B moment, "order placed" tick). Keep it small
Recraft	https://www.recraft.ai	50 free credits/day	App icon + logo as clean SVG
Icons8	https://icons8.com	Free with credit	Empty-state illustrations only (icons = SF Symbols)
APCA contrast checker	https://apcacontrast.com	Free	Check text colour contrast (light + dark mode)
Emil Kowalski essays	https://emilkowal.ski	Free	Taste and animation judgement ("7 Practical Animation Tips", "You Don't Need Animations")
UI/UX Pro Max (design rules)	https://github.com/nextlevelbuilder/ui-ux-pro-max-skill	Free	Colour palettes, font pairings, UX rules checklist
Micrographics templates (PDF in our folder)	ask Aditya Singh	Free	Infographics for the deck, not the app

Paid, don't buy for the hackathon: Devouring Details (https://devouringdetails.com, $249) and Interface Craft by Josh Puckett (https://interfacecraft.dev): the best interaction-design courses, for later. Kombai (https://kombai.com): an AI frontend agent, mostly for React/web, 300 free credits/month.

3. In our folder but web-only (not for the iOS app)

Use only if we make a website or landing page for the pitch: Watermelon UI (ui.watermelon.sh), Cult UI (cult-ui.com), Skiper UI (skiper-ui.com), React Bits (reactbits.dev), GSAP (gsap.com), Lenis (lenis.dev), anime.js, barba.js, Shader Gradient (shadergradient.co), Spline, Unicorn Studio (unicorn.studio).

4. Competitors and apps to study (take screenshots into `docs/competitors/<app>/`)

App	Link	Look at
QuickPill	https://www.quickpill.in	Scan flow, per-medicine prices, "Add best deal" (we replace it with one "Get it all")
MediSaathi	https://www.mymedisaathi.com	7-pharmacy comparison layout
Tata 1mg	https://www.1mg.com (+ app)	Upload flow, where fees appear, tracking
PharmEasy	https://pharmeasy.in (+ app)	"We'll call you" flow, cancellation screens
Apollo 24/7	https://www.apollopharmacy.in (+ app)	Medicines + tests in one app

Truemeds	https://www.truemeds.in	How substitutes are worded (we say "ask your doctor")
LabFare	https://labfare.in	Lab comparison: price, distance, report time
Davaio	https://www.davaio.com	Cart total including delivery
GoodRx (US)	https://www.goodrx.com (open in a browser)	Price-list cards per pharmacy
Skyscanner	https://www.skyscanner.co.in	"Cheapest / Best / Fastest" tabs: we copy this idea for whole-parchi options
Apps on your phone	Blinkit, Zepto, Jan Aushadhi Sugam, Zomato/Swiggy, Uber, Apple Maps	ETA + price chips, store lists, trip tracking, place cards, map pins

5. What to search on Mobbin (15 minutes)

pharmacy · prescription upload · price comparison · map with pins · store list sort · bottom sheet · checkout · order tracking · delivery status · onboarding permissions · empty state · error state · settings privacy

6. Our own files (GitHub: adityasinghin01-hash/parchi)

File	What
CONTEXT.md	The whole project in 2 minutes
docs/team/Frontend-Antara-Aditya.md	Every screen, states, errors, GUI v2 (section 8), acceptance checklist
app/README.md	How to open and run the app in Xcode
app/Parchi/Screens/	Current working screens (restyle and extend these)
engine/scenarios/	Real demo data (prices captured 23 Oct)
docs/research/02-phase2-competitors-identity.md	Competitor research + user complaint numbers
